Product Diagram

Specifications

Model	EP-B61
Technology	BT 4.2, A2DP, AVRCP, HSP, HFP
Driver	1 x 10mm / 0.39" speaker driver (in each earpiece)
Sensitivity	91dB ±3dB
Frequency Response	20Hz - 10KHz
Impedance	32 ohm
Battery Life	8 hours
Charging Time	2 hours
Charging Port	DC 5V
Battery	Lithium Polymer (120mAh)
Operating Range	Up to 10m / 33'
Control	Three-button in-line control
Weight	22g / 0.78oz

Getting Started

Fully charge your earbuds before use. To charge, simply insert one end of the included micro-USB cable to a USB charging port and the other end to the input port on the earbuds. When the red charging indicator light turns blue, your earbuds are fully charged and ready for use. Charging takes around 2 hours.

Turning On / Off

To power on, press and hold the multi-function button for 3 seconds, and the LED indicator will flash blue three times.

To power off, press and hold the multi-function button for 3 seconds, and the LED indicator will flash red three times.

Pairing

Pairing with the earbuds is covered as follows:

- Press and hold the multi-function button for 3 seconds to power on the earbuds, will automatically enter pairing mode, with the LED flashing red and blue alternately. After a moment, to avoid automatic connection to a previously paired device, press and hold for 3 seconds to manually enter pairing mode instead.
- Turn on the pairing function of the device you want to pair with by using the button.
- In the list of available devices, find and select "AUKEY EP-B61". When connected, the LED indicator will flash blue once every 3 seconds.

Simultaneous Connection with Two Devices

- Follow the instructions in the "Pairing" section to pair the earbuds with Device A.
- Once paired, disable wireless function on Device A.
- Repeat steps 2 and 3 from the "Pairing" section to pair with Device B.
- Once paired with Device B, reactivate wireless function on Device A and select "AUKEY EP-B61" in the list of paired devices.
- You can now make and receive calls from either of the two paired modes.

Notes

- To pair with a new phone when switching on the earbuds, press and hold the multi-function button for 3 seconds until the LED flashes red and blue alternately. (If the earbuds are already on, just disconnect the currently connected device), then repeat steps 2 and 3 from the "Pairing" section.
- The earbuds will automatically shut down after 5 minutes in pairing mode if no devices are paired.
- If you select a device to connect or disconnect, the earbuds will automatically enter pairing mode with the LED indicator flashing red and blue alternately and shut down after 5 minutes.
- If the earbuds exceed the wireless operating range of 33ft, they will disconnect from your device and enter pairing mode.

Controls & LED Indicators

Bluetooth Audio

Once paired, you can wirelessly stream audio from your device to the earbuds. Music will automatically pause when you receive an incoming phone call and resume once the call ends.

Play / Pause	Press the multi-function button once
Adjust volume	Press the volume +/- or - once
Go to next / Previous track	Press the volume +/- for 2 seconds

Pairing Mode

Answer or end a call	Press the multi-function button once
Redial last called number	Double press the multi-function button when in standby
Reject an incoming call	Double-press the multi-function button

LED Indicator	Status
Blue & red flashing alternately	Pairing mode
Blue flashing once every 3 seconds	Connected / Playing music / In call
Red on	Charging
Blue on (after charging)	Fully charged

FAQ

The earbuds are on, but not connecting to my device
In order for both devices to establish a connection, you will need to put them in pairing mode. Please follow the instructions in the "Pairing" section of this manual.

I have established a connection with my smartphone, but I'm not hearing my sound
Please double-check the volume level of your smartphone and the earbuds. Some smartphones require you to set the earbuds as an audio output device before audio can be transmitted. If you are using a music player or other device, please make sure it supports the A2DP profile.

The sound is not very clear or the caller cannot hear my voice clearly
Please adjust the volume on your smartphone and the earbuds. By getting closer to your smartphone to rule out the possibility of interference or wireless range-related issues.

Can I use the earbuds while they are charging?
No.

Product Care & Use

- Keep away from liquids and extreme heat
- Do not use earbuds at high volume for extended periods, as this may cause permanent hearing damage or loss

Warranty & Customer Support

For questions, support, or warranty claims, contact us at the address below that corresponds with your region. Please include your Amazon order number and product model number.

Amazon US orders: support@aukey.com
Amazon EU orders: support.eu@aukey.com
Amazon CA orders: support.ca@aukey.com
Amazon JP orders: support.jp@aukey.com

*These notes, AUKEY can only provide after-sales service for products purchased directly from AUKEY. If you have purchased from a different seller, please contact the seller directly for service or warranty issues.

Notice for US

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.

FCC Rules

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct this interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

Caution
Changes or modifications made to this device that are not expressly approved by AUKEY may void the user's authority to use this equipment.

Spezifikationen

Modell	EP-B61
Technologie	BT 4.2, A2DP, AVRCP, HSP, HFP
Treiber	1 x 10mm / 0,39" Lautsprecher (in jedem Kopfhörer)
Empfindlichkeit	91dB ±3dB
Frequenzgang	20Hz - 10KHz
Impedanz	32 Ohm
Batterielebensdauer	8 Stunden
Ladungszeit	2 Stunden
Ladungsanschluss	DC 5V
Batterie	Li-Polymer (120mAh)
Reichweite	Bis zu 10m / 33'
Bedienmethode	Drei-Tasten-In-Line-Steuerung
Gewicht	22g / 0,78oz

Starten

Lesen Sie bitte die Kopfhörer vor dem ersten Gebrauch vollständig durch. Sie können einfach in den eingesteckten Micro-USB-Kabel an einen USB-Ladegerät anschließen und das andere Ende in dem Eingangsanschluss des Kopfhörers stecken. Wenn die rote LED-Anzeige zu blau wechselt, sind Ihre Kopfhörer voll aufgeladen und betriebsbereit. Die Aufladung dauert etwa 2 Stunden.

Ein- / Ausschalten

- Drücken und halten Sie bitte die Multifunktions-taste für 3 Sekunden, um die Kopfhörer einzuschalten, und die LED-Anzeige wird rot und blau abwechselnd blinken. Wenn Sie eine kabellose Verbindung zu einem zuvor gekoppelten Gerät verknüpfen wollen, halten Sie die Taste 5 Sekunden gedrückt, danach gehen Sie den Kopplungsmodus manuell ein.

Kopplung

Starten Sie mit Ihren Kopfhörer ausgerichtet:

- Halten Sie die Multifunktions-taste für 3 Sekunden gedrückt, um die Kopfhörer einzuschalten. Die Kopfhörer werden automatisch in den Kopplungs-Modus versetzt, und die LED-Anzeige wird rot und blau abwechselnd blinken. Wenn Sie eine kabellose Verbindung zu einem zuvor gekoppelten Gerät verknüpfen wollen, halten Sie die Taste 5 Sekunden gedrückt, danach gehen Sie den Kopplungsmodus manuell ein.
