User Manual Optic Pro 3x Telephoto Lens

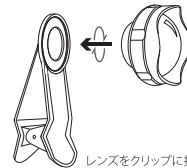

Screw the lens onto the clip.

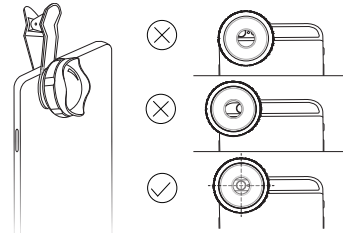

Clip the lens directly over your device's camera lens and ensure the lens is precisely centered on it. You can align them by looking at the device camera lens through the front of the telephoto lens (with the right angle & light). An alternative is to center just the clip first, then carefully screw on the lens. Test the camera to confirm correct fit (a clear view with no black borders or blurred edges). If your device has a case, try removing it for better fit and performance.

レンズをクリップに捻じ込みます。

本製品をスマホのカメラの上に取り付けた後、レンズからスマホのカメラをチェックして、しっかりとカメラの中心に付き合わせることを確認してください。或いは先にクリップをスマホに付けて、後でレンズを慎重にねじ込みます。最後レンズが正しく取り付けるかどうかをテストします(ケラレなくて、ぼんやりしません)。お使いのスマホにケースが付着の場合は、取り外して試してみてください。
